DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Eluru,
26-11-2020

To

The Principal,
Sir CRReddy College of Engineering,
Eluru.

Respected sir,

Subject: Request for Permission to Organize a Four week value added program in CSE Department

I am requesting your permission to organize a Four week value-added program in CSE Department.

The Four week value-added program will be conducted on **Google sketch up on 3D modeling to III/IV, B Tech (CSE) students** from **7.12.2020 to 5.01.2021** and is aimed at providing a platform for students to expand their knowledge and understand the latest advancements and developments in that area.

I am confident that this four week value added program on **Google sketch up for 3D modeling** will be a great success and will contribute significantly to the overall growth and development of our students. So, grant your permission to proceed with the Four week value-added program. I look forward to your positive response.

Thank you, sir.

Sincerely,

HOD, CSE Department.

ABOUT COLLEGE

Sir C.R.Reddy College of Engineering is the
first Engineering College in Andhra Pradesh

sanctioned and recognized by All India Council
for Technical Education (AICTE).This college is
permanently affiliated to JNTUK from the
Academic Year 2017 -18.Since its inception in
1989, Sir C.R.REDDY College of Engineering
has been a premier institute for quality
engineering education in Andhra Pradesh under
the stewardship of its broad minded and
management. The last Two and a half decades
has seen the Institute fulfilling its motto of
'QUALITY SERVICE & VALUE BASED
EDUCATION' to the student community.
Adhering to its core values, the institute gives
top priority to ethical values and high standards
and a commitment to value based education. We
believe in working honestly and sincerely, in
building trust and in maintaining a long lasting
relationship with the society.

ABOUT DEPARTMENT

The Department of Computer Science &
Engineering was established in the year 1989
along with the inception of college. The
department is offering Under Graduate &Post
Graduate programs in CSE &CST respectively.
The intake for UG is 180 and for M.Tech CST
are 18.The department is well equipped with

latest configuration. The students can
experience a great facility of a total networked
environment. The department is using 10no's
of high -end servers for fulfilling the
requirements of the students competitive spirit
to students for academic excellence.

ABOUT COURSE

SketchUp is a [3D modeling](#) software that allows users to create and manipulate 3D models of buildings, landscapes, furniture, and other objects. It is commonly used in [architecture](#) and [interior design](#). The program includes drawing layout functionality, surface rendering in different "styles", and enables placement of its models within [Google Earth](#).

OBJECTIVES OF THE PROGRAM

- Wide breadth of experience in model and texture development
- Excellent knowledge of gaming trends and fields
- Superior facility with a variety of pipelines and tools
- Outstanding proficiencies in concept drawing.

LEARNING OUTCOMES:

- Think and solve problems in the 3D space
- Understand the coordinate system in 2D and 3D
- Use coordinates, points, vectors, and angles

RESOURCE PERSON

Mrs. Dr.K.N.Madhavi Latha

Assistant Professor, Department of CSE, Contact no:9030886003

To

The Principal,
Sir C R Reddy College of Engineering,
Eluru.

Respected sir,

Subject: Request for Permission to Organize a two week value added program in CSE Department

I am requesting your permission to organize a two week value-added program in CSE Department.

The two week value-added program will be conducted on **CONTENT MARKETING COURSE (HUB SPOT) to II/IV B Tech (CSE) from 03-02-2021 to 18-02-2021** and is aimed at providing a platform for students to expand their knowledge and understand the latest advancements and developments in that area.

I am confident that this two week value added program on **CONTENT MARKETING COURSE (HUB SPOT)** will be a great success and will contribute significantly to the overall growth and development of our students. So, grant your permission to proceed with the value-added program. I look forward to your positive response.

Thank you, sir.

Sincerely,

Subject: Permission Request for Conducting Value-Added Program in Civil
Department-Reg.,

Respected Sir,

I am writing to seek your approval for organizing a value-added program in the Civil Department. The proposed program is a **"Two-week short training programmed Online Course on Building Information Modelling Software"(Online)**, scheduled to take place from **7-09-2020 to 19-09-2020** It is tailored for students in the IV/IV B Tech Civil section, aiming to provide them with a platform to expand their knowledge and delve into the latest advancements and developments in this field. I firmly believe that this workshop on Revit Architecture will be instrumental in enhancing our students' skills and understanding, thereby significantly contributing to their overall growth and development. Therefore, I kindly request your permission to proceed with organizing the value-added workshop. Your approval will be greatly appreciated, and I am eager to receive your positive response.

Thank you, Sir,

Sincerely,

About the institution

Sir C.R.Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This College is permanently affiliated to JNTUK from the Academic Year 2017-18. Since its inception in 1989, Sir C.R.Reddy College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and magnanimous management. The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

About the Department

The precise knowledge and skill will help to attain professional and personal goals. The department of civil engineering was started in the year 2009. UG Programme is designed for a broad spectrum of courses and for enriching students through a multidisciplinary approach for a well-rounded knowledge base and manageable skills. Well qualified and experienced faculty members form the department. They specialize in structural, geotechnical, environmental, etc and a few of them are pursuing Ph.D from various reputed universities in India. The faculty members contribute to academic development by presenting papers in international and national conferences.

About the course overview

INTRODUCTION TO Autodesk Revit Architecture A powerful building modeler that has changed the outlook of the building industry about computer aided designs. Enables you to use a single, integrated building information model to conceptualize, design, and finally document a project. Drawing sheets, 2D views, 3D views, and schedules.

Objectives of the course :

- **ASIC CONCEPTS AND PRINCIPLES**
Envisage and develop a building model with actual 3D parametric building elements. A new approach to the architectural thought and the implementation process. 2D CAD platforms mostly use lines to represent all elements.
- Autodesk Revit Architecture project created using parametric building model
- Understanding the Parametric Building Modeling Technology A project Created using different interdependent parametric building elements.
- Learn industry-standard practices and techniques for efficient and accurate drawing creation and modification.
- creating a Building Model Using Parametric Building Elements Uses five classes of element: host, component, annotation, view, and datum.

Eligibility:

- IV/IV B.Tech Students

Registration Fee:

- Free of cost

Venue

- Civil Engineering Computer Centre

Schedule of the Course

Date	Topics Covered
7-9-20	Introduction to Revit Architecture Software and BIM User Interface
8-9-20	Understanding Basic Commands, Templates
9-09-20	Overview of Walls, Doors, Windows, and Edit Types
10-09-20	Placing and Modifying Components
11-09-20	Editing Floors, Ceilings, Curtain Walls, and Wall Openings
12-09-20	Exploring Roof Types, Staircase,
14-09-20	Double Doors and Glazed Doors, Different Staircase Styles
15-09-20	Creating Ramps, Railings, and Section Views
16-09-20	Generating Materials, and Modelling
17-09-20	Working with Model Text, Model Lines, Rooms, and Areas,
18-09-20	Understanding Massing, Site Design,
19-09-2020	Creating Component Schedules
Validictory

Summary Report of on “Two-week short training programmed Online Course on Building Information Modelling Software”

Date: 7-09-20 to 19-09-20

Course coordinator: M. Chandrakanth

Asst professor, Department of civil Engineering,
Sir C R Reddy College of Engineering.

Resource person: N. Nagasai

Andhra Pradesh state skill Development Corporation, Govt.AP

Course overview: The APSSDC offers courses in Revit Architecture in both traditional classroom settings and online. Revit, created by Autodesk, is a Building Information Modeling (BIM) software utilized for specialized design, modeling, visualization, and documentation purposes

Objectives of the Programme:

Conceptual Design: Revit allows architects to quickly create conceptual models and explore different design options.

3D Parametric Modeling: Revit's parametric modeling features enable architects to create detailed 3D models that capture the relationships between different building components.

Modeling Building Components: Revit provides a comprehensive library of building components, such as walls, doors, windows, and roofs, which can be easily incorporated into the design. Architects can also create custom building components to meet specific project requirements.

Generating Design Documentation: Revit automatically generates design documentation, including floor plans, elevations, sections, and schedules, based on the 3D model. This streamlines the documentation process and ensures accuracy and consistency across all drawings.

Outcomes of the Programme:

- Describe building information modeling methodology and its benefits.
- Use different parts of the Revit Architecture user interface and work with different types of architectural elements and families
- Use the different views listed in the Project Browser, control the visibility and graphical
- Modeling building components.
- Generating design documentation for fabrication or construction.
- Structural steel modeling and documentation.
- MEP fabrication modeling and detailing.
- Photorealistic 3D visualization

Respected Sir,

Subject: Permission Request for a five day value added program on "Design and analysis of Antennas and Microwave components using HFSS"

The value-added program will be conducted on "**Design and analysis of Antennas and Microwave components using HFSS to III/IV - B Tech (ECE), A,B and C sections from 01-02-2021 to 05-02-21**" and is aimed at providing a platform for students to understand basics of computational electromagnetic which make them to design, simulate, and optimize antenna for the given specification in turn helps to their career with good placement.

I am confident that this value added program on "**Design and analysis of Antennas and Microwave components using HFSS**" will be a great success and will contribute significantly to the overall growth and development of our students. So, grant your permission to proceed with the value-added program. I look forward to your positive response.

ABOUT COLLEGE

Sir C.R.Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This College is permanently affiliated to JNTUK from the Academic Year 2017-18.

Since its inception in 1989, Sir C.R.Reddy College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and magnanimous management. The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance.

ABOUT DEPARTMENT

The Department of Electronics & Communication Engineering has been functioning since the inception of the College in 1989. The present intake is 180 students in First Year with 10% lateral entry in second year. A new P.G.Course M.Tech. (VLSI) & (CS) was introduced by the department during the Academic year 2010 - 2011. The Department has 34 Teaching Faculty members. Out of this 04 are Doctorates. The Department has excellent Laboratory facilities, Work-Shops, Computer Centers.

ABOUT COURSE

High Frequency Structure Simulator (HFSS) is a powerful electromagnetic simulation software widely used in the field of RF (Radio Frequency) and microwave engineering. Developed by Ansys, HFSS enables engineers and researchers to design, analyze, and optimize high-frequency electronic components and systems with unprecedented accuracy and efficiency. By employing finite element analysis (FEA) techniques, HFSS can simulate electromagnetic fields, currents, and voltages within complex three-dimensional structures, such as antennas, waveguides, filters, and integrated circuits. Its advanced features include automatic mesh generation, adaptive refinement, and various solver options tailored for different simulation scenarios, allowing users to achieve precise results even in highly challenging electromagnetic environments. HFSS plays a critical role in the design and validation of modern wireless communication systems, radar systems, and high-speed digital circuits, empowering engineers to innovate and accelerate product development while ensuring robust performance and compliance with stringent design specifications.

Objectives of Course:

- Explain the concepts of computational electromagnetics
- Illustrate the key elements of High frequency simulations.
- Design, simulate, optimize antennas for the given specification.

- Implement Metaheuristic Algorithms: Gain hands-on experience with genetic algorithms and simulated annealing for complex optimization challenges.
- Apply Multi-Objective Optimization: Understand and apply concepts of multi-objective optimization and Pareto optimality in practical settings.

Course Contents

- Introduction to the principles of optimization, covering both theoretical foundations and practical applications.
- Detailed exploration of linear programming and the simplex method, complemented by hands-on lab sessions for real-world application.
- Examination of non-linear and constrained optimization techniques, with a focus on solving complex optimization problems through workshops.
- In-depth study and practical implementation of metaheuristic algorithms, such as genetic algorithms and simulated annealing, for advanced optimization challenges.
- Comprehensive coverage of multi-objective optimization and Pareto optimality, culminating in project work that showcases the development and optimization of models.

Summary Report on A One Week Value Added Course titled

Title of the course: "Design and analysis of Antennas and Microwave Devices using HFSS"
Duration: 01-02-2021 to 05-01-2021

Resource Persons: M r. D. Pavan Kumar
Mr. Akash Singh

About the course

High Frequency Structure Simulator (HFSS) is a powerful electromagnetic simulation software widely used in the field of RF (Radio Frequency) and microwave engineering. Developed by Ansys, HFSS enables engineers and researchers to design, analyze, and optimize high-frequency electronic components and systems with unprecedented accuracy and efficiency. By employing finite element analysis (FEA) techniques, HFSS can simulate electromagnetic fields, currents, and voltages within complex three-dimensional structures, such as antennas, wave guides, filters, and integrated circuits. Its advanced features include automatic mesh generation, adaptive refinement, and various solver options tailored for different simulation scenarios, allowing users to achieve precise results even in highly challenging electromagnetic environments. HFSS plays a critical role in the design and validation of modern wireless communication systems, radar systems, and high-speed digital circuits, empowering engineers to innovate and accelerate product development while ensuring robust performance and compliance with stringent design specifications.

Course objectives

- Explain the concepts of computational electromagnetics
- Illustrate the key elements of High frequency simulations.
- Design, simulate, optimize antennas for the given specification.
- Optimize antenna geometry for maximum gain and radiation efficiency using HFSS.
- Minimize impedance mismatch and enhance bandwidth through precise microstrip line design in HFSS.

IQAC

- Achieve desired beamwidth and sidelobe levels by fine-tuning array element spacing with HFSS.
- Design compact microwave filters with optimal insertion loss and rejection using HFSS.
- Enhance antenna performance in complex environments by simulating scattering and multipath effects in HFSS.

Course content

- Programming Concepts using Verilog Hardware Description Language.
- Introduction to EDGE, PYNQ, ZYBO and NEXES A7 FPGA Boards
- Introduction to Virtual IP cores- Block level design.
- Hardware interfacing with FPGA boards : BCD-7 Segment Display, Buzzer, BCD-7 Segment Counter, Switch LED, Music Box, Push Button LED, Digital to Analog converter, LED Blinker through bluetooth, Analog to Digital converter, IR sensor

Dr. Venkateswara Rao, HOD-ECE, delivered his speech regarding the activities in the ECE dept. for the technical enrichment of the students and research facilities for the staff and the use of design of antennas using HFSS for students as well as Faculty in developing their careers.

Dr. G. Sambasiva Rao, Principal Sir C R R college of Engineering, in his words said about the support of the college management towards the development of the college. He said that the HFSS software will be useful for every engineering branch student as well as faculty. It is great opportunity for the students as well as faculty of our college to expertise in antenna designing. He sincerely thanked Mr.D. Pavan Kumar, Chief speaker of the workshop for his valuable interaction with students and faculty and he also thanked Mr. Aakash Singh, speaker of the workshop for accepting their request.

Analysis of Antennas & Microwave Components using HFSS. He gave valuable suggestions and trending research ideas for the faculty.

If you've ever seen a rocket launch, flown on an airplane, driven a car, used a computer, touched a mobile device, crossed a bridge, or put on wearable technology, chances are you've used a product where ANSYS software played a critical role in its creation. ANSYS is the global leader in engineering simulation. We help the world's most innovative companies deliver radically better products to their customers. By offering the best and broadest portfolio of engineering simulation software, we help them solve the most complex design challenges and engineer products limited only by imagination. Join our nearly 3000 professionals around the world in making a difference in the world of engineering simulation and product development. Moreover he interacted with faculty and students and clarified their doubts in practical approach. After the completion of his speech, he awarded with a memento as a token of respect form.

DAY-2

of the basic microwave components and antennas with some examples. It is a Hands-on session. students (B. tech. & M. Tech) and faculty practiced the sample designs in the laboratory.

This workshop is intended to show how to simulate and analyze a micro strip patch antenna using ANSYS HFSS. ANSYS HFSS is the industry leading 3D electromagnetic (EM) simulation tool for high frequency and high-speed electronic components including antenna design and placement. The following workshop provide a comprehensive understanding of how HFSS is used to design antennas.

In this session Mr. Aakash Singh explained Planar Inverted F Antenna (PIFA) for Universal Serial Bus (USB dongle application). The purpose of the parametric analysis is to design a compact antenna for USB device. He shows the parametric simulations (parameters are ground plan dimensions, height of radiating plate, feeding point position, shorting plate dimensions and positioning) was used to design optimized antenna. The simulation allowed the characterization of the designed antenna and the computing of different antenna parameters like S11 parameter, resonant frequency, SWR, bandwidth impedance in feeding point, gain, 2D and 3D diagram pattern, Fields distribution.

DAY- 5

Venue: Computer Center (ECE)

Date : 05/2/21

Topic: Re-configurable Antenna Design, Defected Ground Structures

Speaker: Mr. Aakash Singh

In this session Mr. Aakash Singh, he explained Reconfiguration is used for reducing the antenna numbers a single antenna structure is sufficient to operate various frequency ranges the PIN diode switch for achieving the reconfigurability.

After he explained DGS is adopted as an emerging technique for improving the various parameters of microwave circuits, that is, narrow bandwidth, cross-polarization, low gain, and so forth

This session he explained the RF electromagnetic radiation of the cell phones has generated certain concerns about the possible health hazards the peak SAR values for two 3D head models. With two and three layers, were computed, using ANSYS/HFSS finite element software.

Students and Faculty asked doubts regarding the topics they learned in these five days, he explained all the questions raised by them using practical examples.

Feedback analysis

Course Objectives Clarity: A significant majority of the students (46) felt that the objectives of the course were clear to them, rating it as very good. This indicates a strong alignment between the course's aims and students' understanding of those goals.

Meeting Expectations: The majority of respondents (48) reported that the course contents met their expectations, with a smaller group rating it as good (21). This suggests that the course was well-received in terms of its relevance and coverage.

Lecture Sequencing: The sequence of lectures was considered well planned by a large portion of the students (44), indicating effective curriculum design and organization.

Exposure to New Knowledge: The course was highly effective in exposing students to new knowledge and practices, as evidenced by 50 students rating this aspect as very good. This is a critical measure of the course's value addition.

Clarity of Lectures: Most students found the lectures to be clear and easy to understand, with 50 students rating them as very good. This reflects positively on the instructors' delivery methods.

Use of Teaching Aids: The majority of students felt that teaching aids were effectively used (44 rated as very good), though there is a slight indication towards room for improvement based on the mixed ratings received.

Course Material Adequacy: The adequacy of course material was well-regarded, with 47 students finding it to be very good, suggesting that the resources provided were sufficient and relevant.

Instructor Interaction: A large majority of students appreciated the level of interaction encouraged by the instructors (49 rated as very good), highlighting the program's supportive learning environment.

Instructor Support in Clarification: The instructors were perceived as helpful in clarifying doubts, with 50 students rating this support as very good, which is pivotal for effective learning.

Recommendations: Enhance Interaction and Clarification Opportunities: Despite high ratings, continuously seeking ways to increase student-instructor interaction and clarify doubts can further improve learning outcomes.

Review and Improve Teaching Aids: A small proportion of students indicated a need for improvements in the use of teaching aids. Exploring innovative tools and techniques could enhance learning engagement.

Maintain and Build on Strengths: The course's strengths in clarity, sequencing, and exposure to new knowledge should be maintained and built upon in future iterations of the program.

Conclusion: The feedback indicates a highly positive reception of the value-added course among final-year students, with particularly strong outcomes in areas such as course objective clarity, exposure to new knowledge, and instructor support. Moving forward, there's a small margin for enhancement in the use of teaching aids and further fostering of student-instructor interaction. Overall, the program appears to be a significant success, contributing valuable knowledge and skills to the participating students.

Subject: Request for Permission to Organize a value added course in ECE Department –Reg.

I am requesting your permission to organize value-added course in ECE Department. The four week value-added course will be conducted on **“ADVANCED IMAGE AND VIDEO PROCESSING USING MATLAB AND PYTHON”** to III/IV B.Tech ECE from **07-12-2020 to 05-01-2021** and is aimed at providing a platform for students to expand their knowledge and understand the latest advancements and developments in that area.

I am confident that this four week value added course on **“ADVANCED IMAGE AND VIDEO PROCESSING USING MATLAB AND PYTHON”** will be a great success and will contribute significantly to the overall growth and development of our students. So, grant your permission to proceed with the value-added program. I look forward to your positive response.

Thank you sir,

ABOUT COLLEGE

Sir C. R. Reddy College of Engineering is the first

Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This college is permanently affiliated to JNTUK from the Academic Year 2017-18. Since its inception in 1989, Sir C. R. REDDY College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broadminded and dynamic management. The last two and a half decades have seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community. Adhering to its core values, the institute gives top priority to ethical values and high standards and a commitment to value based education. We believe in working honestly and sincerely, in building trust and in maintaining a long lasting relationship with the society.

ABOUT DEPARTMENT

The department of Electronics and Communication Engineering was established to impart state-of-the-art knowledge to students and has been functioning since the beginning of the college, i.e., from FY 1989-90, with an intake of 60 students. Presently, the intake of the ECE department is 180 students. The department has a faculty strength of 35 well-qualified, experienced, and dedicated postgraduates with 8 doctorates, and some (16) of them are pursuing Ph.D. in different streams. The ECE department encourages students to pursue postgraduate studies and prepares them for leadership roles in research and development. It offers one M.Tech course in VLSI from FY 2011-12.

ABOUTTHECOURSE

This course will cover the fundamentals of image and video processing. We will provide a mathematical framework to describe and analyze images and videos as two- and three-dimensional signals in the spatial, spatio-temporal, and frequency domains. In this class not only will you learn the theory behind fundamental processing tasks including image/video enhancement, recovery, and compression - but you will also learn how to perform these key processing tasks in practice using state-of-the-art techniques and tools. MATLAB (matrix laboratory) is a multi-paradigm numerical computing environment and fourth-generation programming language. MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation. Typical uses include: Math and computation

OBJECTIVESOFTHEPROGRAM:

- Provide participants with advanced knowledge and practical skills in image and video processing
- Introduce participants to advance algorithms techniques in matlab and python for manipulating and analyzing visual data.
- Explore real word applications of image and video processing in various domains such as medicine surveillance robotics and multimedia

LEARNINGOUTCOMES:

- Practical application: Acquire practical skills to apply image and video processing technics to real world problems and applications in various domains.
- Problem Solving Skills: Enhance problem solving skills by applying appropriate algorithms and techniques to address specific challenges in image and video processing tasks.

The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

ABOUT THE DEPARTMENT

Department of Electrical & Electronics Engineering (EEE) offers under graduate (B. Tech.) course in EEE and a post graduate(M.Tech.)

specialization in Power Systems and Automation and is permanently affiliated JNTUK, Kakinada Andhra Pradesh, India. Department of EEE was started in the year 1994 with an intake of 60 students and subsequently enhanced to 90 students. The Department offers M. Tech. specialization for an intake of 18 students.

ABOUT THE COURSE

MATLAB is a powerful numerical computing environment and programming language used in various fields such as engineering, mathematics, science, and finance.

Here's a guide for beginners to get started with MATLAB programming:

Install MATLAB: MATLAB is a commercial software package, so you'll need to purchase a license or use a trial version. Install MATLAB on your computer following the instructions provided by MathWorks, the company behind MATLAB.

OBJECTIVES OF THE PROGRAM:

- To introduce the MATLAB Software .
- To Impart the Knowledge to the students with MATLAB software. [This enhances programming knowledge for Problem Solving].
- To provide a working introduction to the Matlab technical computing environment. [Themes of data analysis, visualization, and programming].
- To introduce students the use of a high-level programming language, Matlab. [scientific problem solving with applications and examples from Engineering].

LEARNING OUTCOMES:

- Able to Understand the basics of Matlab
- Able to Break a complex task up into smaller, simpler tasks
- Able to Case Study (Any two Modules).

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

SUMMARY REPORT

Value Added Course : "MATLAB PROGRAMMING FOR BEGINNERS"

Dated : 09-11-2020 to 27-11-2020

Duration: 45 hours (3 weeks)

Resource Persons: Dr M. VEERA KUMARI

Objectives of the program:

- To introduce the MATLAB Software .
- To Impart the Knowledge to the students with MATLAB software. [This enhances programming knowledge for Problem Solving].
- To provide a working introduction to the Matlab technical computing environment. [Themes of data analysis, visualization, and programming].
- To introduce students the use of a high-level programming language, Matlab. [scientific problem solving with applications and examples from Engineering].

Outcomes of the program:

- Able to Understand the basics of Matlab .
- Able to Break a complex task up into smaller, simpler tasks
- Able to Case Study (Any two Modules).

No. of students completed the course: 169

Eluru,
14-08-2020.

To
The Principal,
Sir CR Reddy College of Engineering,
Eluru.

Respected sir,

Subject: Request for Permission to Organize a Value Added Program in EEE Department – Reg.

I am requesting your permission to organize a **3-week Value-Added Program** in EEE Department. The 3-week value-added program will be conducted on TOPIC: **Energy Management to III/IV B.Tech (EEE) students**, from 17-8-2020 to 4-09-2020 and is aimed at providing a platform for students to expand their knowledge and understand the latest advancements and developments in that area.

I am confident that this 3-week value added program on **Energy Management** will be a great success and will contribute significantly to the overall growth and development of our students. So, grant your permission to proceed with the value-added program. I look forward to your positive response.

Thank you sir,

ABOUT THE INSTITUTE

Sir C. R. Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This College is permanently affiliated to JNTUK from the Academic Year 2017-18.

Since its inception in 1989, Sir C. R. Reddy College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and magnanimous management. The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

ABOUT THE DEPARTMENT

Department of Electrical & Electronics Engineering (EEE) offers under graduate (B. Tech.) course in EEE and a post graduate(M.Tech.)

specialization in Power Systems and Automation and is permanently affiliated JNTUK, Kakinada Andhra Pradesh, India. Department of EEE was started in the year 1994 with an intake of 60 students and subsequently enhanced to 90 students. The Department offers M. Tech. specialization for an intake of 18 students.

ABOUT THE COURSE

Energy management involves the planning, optimization, and control of energy resources to ensure efficiency, sustainability, and cost-effectiveness. It encompasses various activities aimed at reducing energy consumption, improving energy efficiency, and integrating renewable energy sources. Here's an overview of key aspects of energy management: Energy Audits and Assessments: Conducting energy audits to assess current energy usage patterns,

Respected Sir,

Subject: Permission Request for a one week value added course on "RoboAnalyzer Boot camp: Robotics Expertise Program"

I am seeking your approval to launch a one week value added course on "RoboAnalyzer Boot camp: Robotics Expertise Program" for III/IV B. Tech students, starting 22-03-2021 to 27-03-2021. This program aims to equip our students with vital automation skills, enhancing their employability in the engineering sector.

Your support for this practical and career-oriented initiative is requested. We look forward to your positive response.

ABOUT COLLEGE

Sir C.R.Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This College is permanently affiliated to JNTUK from the Academic Year 2017-18.

Since its inception in 1989, Sir C.R.Reddy College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and magnanimous management. The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance.

ABOUT DEPARTMENT

The Department of Mechanical Engineering has been functioning since the inception of the College in 1989. The present intake is 90 students in First Year with 10% lateral entry in second year. A new P.G.Course M.E. (Machine Design) was introduced by the department during the Academic year 2010 - 2011. The Department has 24 Teaching Faculty members. Out of this 07 are Doctorates. The Department has excellent Laboratory facilities, Work-Shops, Drawing Halls.

- ◆ A Siemens Skill Development Center with a CNC Lathe Machine, CNC Milling machine and with all advanced welding equipment and processes is functioning since 2016.

Another Skill Development center in collaboration with VELJAN HYDRAIR Ltd. & DENISON HYDRAULICS Ltd., Hyderabad is in pipeline with an investment of rupees 1 crore

- ◆ to train the students on advanced Pneumatic and
- ◆ Hydraulic systems.

ABOUT COURSE

This RoboAnalyzer course is designed to provide an in-depth understanding of robotic systems through visualization and simulation. Starting with the basics, it covers DH Parameters, forward and inverse kinematics, and dynamics, employing both theoretical and hands-on approaches. Advanced sessions explore dynamic simulations and the Virtual Robot Module for complex scenarios. The course culminates in a comprehensive project, enabling participants to apply their skills in a practical setting, followed by presentations and certification, ensuring a thorough grasp of robotic principles and RoboAnalyzer software.

Objectives of Course:

- ◆ Introduce participants to RoboAnalyzer, focusing on its interface, basic operations, and visualization of DH Parameters.

- ◆ Utilize the Virtual Robot Module for advanced simulation techniques, including the design and simulation of complete robot models.
- ◆ Develop understanding and application skills in forward and inverse kinematics within RoboAnalyzer, including theoretical concepts and hands-on practice.
- ◆ Explore the principles of inverse and forward dynamics, applying these concepts through dynamic simulation exercises.
- ◆ Culminate in a project where participants apply learned skills, followed by presentations, feedback, and certification.

Course Contents

- ◆ Introduction to RoboAnalyzer for visualizing DH Parameters and understanding robotic interfaces and operations.
- ◆ Comprehensive exploration of forward and inverse kinematics, including both theoretical insights and practical application within RoboAnalyzer.
- ◆ In-depth study and hands-on practice with inverse and forward dynamics to understand motion and forces in robotic systems.
- ◆ Advanced simulation techniques using the Virtual Robot Module for creating and simulating complex robot models.
- ◆ A culminating project that applies all learned skills, leading to presentations, feedback, and certification for participants.

Course schedule for One Week Value Added Course titled "RoboAnalyzer Boot camp: Robotics Expertise Program"

S.No.	Date	Topic
1	22/03/2021	Introduction to RoboAnalyzer & Visualization. Overview and DH Parameters Visualization.
		Session 1: Exploring RoboAnalyzer's Interface. Basic operations, settings, and DH Parameter visualization.
		Session 2: Introduction to Forward Kinematics. Theoretical concepts and practical application in RoboAnalyzer.
		Session 3: Hands-on with Forward Kinematics. Creating and analyzing robotic arm movements.
2	23/03/2021	Session 1: Inverse Kinematics Concepts. Understanding and applying inverse kinematics in RoboAnalyzer.
		Session 2: Practical Application of Inverse Kinematics. Solving problems using RoboAnalyzer.
		Session 3: In-depth Inverse Kinematics Practice. Advanced exercises and troubleshooting.
3	24/03/2021	Session 1: Introduction to Inverse Dynamics. Theory and application in RoboAnalyzer.
		Session 2: Forward Dynamics Concepts. Exploring the dynamics of motion and forces.
		Session 3: Hands-on Dynamics Simulation. Applying inverse and forward dynamics in RoboAnalyzer.
4	25/03/2021	Virtual Robot Module Introduction. Exploring the virtual robot environment in RoboAnalyzer.
		Session 2: Advanced Simulation Techniques. Utilizing the Virtual Robot Module for complex simulations.
		Session 3: Case Study & Practical Exercise. Designing and simulating a complete robot model.
5	26/03/2021	Project Work Introduction. Overview of final project requirements and objectives.
		Session 2: Project Work. Hands-on project development, with guidance and troubleshooting.
5	27/03/2021	Session 3: Presentation and Review. Final project presentations and group feedback.
		Closing Session: Certification. Review of key learnings and distribution of certificates to participants.

Feedback analysis

Key Findings:

Course Objectives Clarity: A significant majority of the students (35) felt that the objectives of the course were clear to them, rating it as very good. This indicates a strong alignment between the course's aims and students' understanding of those goals.

Meeting Expectations: The majority of respondents (36) reported that the course contents met their expectations, with a smaller group rating it as good (19). This suggests that the course was well-received in terms of its relevance and coverage.

Lecture Sequencing: The sequence of lectures was considered well planned by a large portion of the students (41), indicating effective curriculum design and organization.

Exposure to New Knowledge: The course was highly effective in exposing students to new knowledge and practices, as evidenced by 43 students rating this aspect as very good. This is a critical measure of the course's value addition.

Clarity of Lectures: Most students found the lectures to be clear and easy to understand, with 35 students rating them as very good. This reflects positively on the instructors' delivery methods.

IQAC

DEPARTMENT OF MECHANICAL ENGINEERING

Use of Teaching Aids: The majority of students felt that teaching aids were effectively used (37) rated as very good), though there is a slight indication towards room for improvement based on the mixed ratings received.

Course Material Adequacy: The adequacy of course material was well-regarded, with 40 students finding it to be very good, suggesting that the resources provided were sufficient and relevant.

Instructor Interaction: A large majority of students appreciated the level of interaction encouraged by the instructors (39 rated as very good), highlighting the program's supportive learning environment.

Instructor Support in Clarification: The instructors were perceived as helpful in clarifying doubts, with 41 students rating this support as very good, which is pivotal for effective learning.

Recommendations: Enhance Interaction and Clarification Opportunities: Despite high ratings, continuously seeking ways to increase student-instructor interaction and clarify doubts can further improve learning outcomes.

Review and Improve Teaching Aids: A small proportion of students indicated a need for improvements in the use of teaching aids. Exploring innovative tools and techniques could enhance learning engagement.

Maintain and Build on Strengths: The course's strengths in clarity, sequencing, and exposure to new knowledge should be maintained and built upon in future iterations of the program.

Conclusion: The feedback indicates a highly positive reception of the value-added course among final-year students, with particularly strong outcomes in areas such as course objective clarity, exposure to new knowledge, and instructor support. Moving forward, there's a small margin for enhancement in the use of teaching aids and further fostering of student-instructor interaction. Overall, the program appears to be a significant success, contributing valuable knowledge and skills to the participating students.

Respected Sir,

Subject: Permission Request for one a one week value added program on "Level I Stability Analysis (LISA)"

I am seeking your approval to launch a one week value added program titled "Level I Stability Analysis (LISA) " for IV/IV B. Tech (MECH) students, starting 08-03-2021 to 13-03-2021. This program aims to equip our students with simulation knowledge and analytical skills, enhancing their employability in the engineering sector.

Your support for this practical and career-oriented initiative is requested. We look forward to your positive response.

ABOUT COLLEGE

Sir C.R.Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This College is permanently affiliated to JNTUK from the Academic Year 2017-18.

Since its inception in 1989, Sir C.R.Reddy College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and magnanimous management. The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

The institution is continuously striving for excellence by adopting changes to improve the systems, practices and performance.

ABOUT DEPARTMENT

The Department of Mechanical Engineering has been functioning since the inception of the College in 1989. The present intake is 120 students in First Year with 10% lateral entry in second year. A new P.G.Course M.E. (Machine Design) was introduced by the department during the Academic year 2010 - 2011. The Department has 24 Teaching Faculty members. Out of this 07 are Doctorates. The Department has excellent Laboratory facilities, Work-Shops, Drawing Halls.

A Siemens Skill Development Center with a CNC Lathe Machine, CNC Milling machine and with all advanced welding equipment and processes is functioning since 2016.

Another Skill Development center in collaboration with VELJAN HYDRAIR Ltd. & DENISON HYDRAULICS Ltd., Hyderabad is in pipeline with an investment of rupees 1 crore to train the students on advanced Pneumatic and Hydraulic systems.

Objectives of Course:

- ◆ Understand the principles of linear static analysis and its application in design validation.
- ◆ Grasp modal vibration concepts to determine natural frequencies in mechanical structures.
- ◆ Analyze dynamic responses of systems under variable loads for performance assessment.
- ◆ Evaluate structural integrity under buckling loads and understand critical loading conditions.
- ◆ Conduct thermal analysis to assess steady and transient heat flow within materials and structures.

Course Contents

- Introduction to linear static analysis with case studies.
- Exploring modal vibration and its effects on design.
- Analyzing structural behaviors under dynamic loads.
- Workshops on applying linear static principles and buckling analysis.
- Techniques for simulating heat flow and acoustic analysis.
- Advanced sessions on fluid flow and electromagnetic analysis.
- CAD tool integration for enhanced design analysis.
- The course concludes with project work, reviews, Q&A, and certification.

Eligibility

All IV-B.Tech Students

S.No.	Date	Topic
1	08/03/2021	Linear Static Analysis: Fundamentals and Case Studies
		Modal Vibration: Understanding Natural Frequencies
		Dynamic Response: Analysis of Structures Under Dynamic Load
		Workshop: Practical Application of Linear Static Principles
2	09/03/2021	Buckling Analysis: Evaluating Critical Load
		Steady and Transient Heat Flow: Simulation Techniques
		Acoustic Analysis: Basics and Industrial Applications
		Workshop: Conducting Buckling and Heat Flow Analysis
3	10/03/2021	Steady Fluid Flow Analysis: Simulating Incompressible Flow
		DC Circuits: Analysis and Optimization
		Electrostatics and Magnetostatics: Field Calculations
		Workshop: Fluid Flow and Electromagnetic Analysis
4	11/03/2021	CAD Associativity: Integrating Design with Analysis
		STEP and STL Formats: Utilization in Simulation
		Gmsh Formats: Advanced Meshing Techniques
		Workshop: Mesh Generation and Optimization for Analysis
5	12/03/2021	Comprehensive Review: Statics, Dynamics, and Heat Transfer
		Comprehensive Review: Fluids and Electromagnetics
		Integration Techniques: Enhancing Analysis with CAD Tools
		Open Session: Q&A and Troubleshooting
6	13/03/2021	Project Day: Application of All Techniques in a Unified Model
		Project Development: Group Work on Complex Systems

Summary of Feedback from a one week Value added program titled as “Level I Stability Analysis (LISA)”

The department of mechanical engineering organized a one week value-added course “Level I Stability Analysis (LISA)”. Feedback was collected from 58 students regarding various aspects such as the technical content, program infrastructure, and other relevant factors. This will be included in the report.

Feedback analysis

Key Findings:

Course Objectives Clarity: A significant majority of the students (33) felt that the objectives of the course were clear to them, rating it as very good. This indicates a strong alignment between the course's aims and students' understanding of those goals.

Meeting Expectations: The majority of respondents (35) reported that the course contents met their expectations, with a smaller group rating it as good (19). This suggests that the course was well-received in terms of its relevance and coverage.

Lecture Sequencing: The sequence of lectures was considered well planned by a large portion of the students (33), indicating effective curriculum design and organization.

Exposure to New Knowledge: The course was highly effective in exposing students to new knowledge and practices, as evidenced by 31 students rating this aspect as very good. This is a critical measure of the course's value addition.

Clarity of Lectures: Most students found the lectures to be clear and easy to understand, with 30 students rating them as very good. This reflects positively on the instructors' delivery methods.

Use of Teaching Aids: The majority of students felt that teaching aids were effectively used (37 rated as very good), though there is a slight indication towards room for improvement based on the mixed ratings received.

IQAC

DEPARTMENT OF MECHANICAL ENGINEERING

Course Material Adequacy: The adequacy of course material was well-regarded, with 40 students finding it to be very good, suggesting that the resources provided were sufficient and relevant.

Instructor Interaction: A large majority of students appreciated the level of interaction encouraged by the instructors (35 rated as very good), highlighting the program's supportive learning environment.

Instructor Support in Clarification: The instructors were perceived as helpful in clarifying doubts, with 31 students rating this support as very good, which is pivotal for effective learning.

Recommendations: Enhance Interaction and Clarification Opportunities: Despite high ratings, continuously seeking ways to increase student-instructor interaction and clarify doubts can further improve learning outcomes.

Review and Improve Teaching Aids: A small proportion of students indicated a need for improvements in the use of teaching aids. Exploring innovative tools and techniques could enhance learning engagement.

Maintain and Build on Strengths: The course's strengths in clarity, sequencing, and exposure to new knowledge should be maintained and built upon in future iterations of the program.

Conclusion: The feedback indicates a highly positive reception of the value-added course among final-year students, with particularly strong outcomes in areas such as course objective clarity, exposure to new knowledge, and instructor support. Moving forward, there's a small margin for enhancement in the use of teaching aids and further fostering of student-instructor interaction. Overall, the program appears to be a significant success, contributing valuable knowledge and skills to the participating students.

ABOUT COLLEGE

Sir C.R.Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This college is permanently affiliated to JNTUK from the Academic Year 2017 -18. Since its inception in 1989, Sir C.R.REDDY College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and management. The last Two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE VALUE BASED EDUCATION' to the student community. Adhering to its core values, the institute gives top priority to ethical values and high standards and a commitment to value based education. We believe in working honestly and sincerely, in building trust and in maintaining a long lasting relationship with the society.

ABOUT DEPARTMENT

The Post graduate department of management studies at Sir C.R.Reddy College of Engineering was started in 2007. It has a two - year full time M.B.A. programme, approved by AICTE and affiliated to Andhra University. This department aims at producing quality management professional to the Nation. Its quest is to prepare managers that are professionally competent, ethically conscious and socially responsible to cater to the present day needs of the business and the society.

ABOUT THE COURSE

Human Capital Management (HCM) is a defined set of practices for people resource management. These practices define specific competencies and are implemented in an organization's workforce acquisition, workforce management, and workforce optimization categories. It transforms the traditional administrative functions of human resource departments like recruiting, training, payroll, compensation, and performance management, into opportunities to drive engagement, productivity, and business value.

OBJECTIVES OF THE PROGRAM

- to clarify the character of the special capital - human resource as capital
- to develop the basic set of methods and techniques needed for managing human capital
- to learn about basic administrative processes related to human capital management
- about the new trends in human capital management
- about the work, competencies tasks and organization of Human Resource Specialist

ABOUT THE COURSE

Integrated marketing communication (IMC) used to unify marketing communication elements, such as public relations, social media, audience analytics, business development principles, and advertising, into a brand identity that remains consistent across distinct media channels. It's a strategic approach that guides communication and tactics used across all marketing channels.

OBJECTIVES OF THE PROGRAM:

- Maintaining consistent messaging across all channels to strengthen brand identity.
- Understanding various channels like advertising, PR, sales promotions, direct marketing and digital marketing.
- Identifying and segmenting target audiences based on preferences and behaviours.
- Assessing effectiveness through metrics like brand awareness and customer engagement.
- Allocating resources effectively based on channel impact and ROI.
