7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

**Solid waste management**

**Liquid waste management**

**Biomedical waste management**

**E-waste management**

**Waste recycling system**

**Hazardous chemicals and radioactive waste management**

**Solid waste management**

All solid wastes are disposed of with the help of local authorities.

**Liquid waste management**

Liquid waste generated is either suitably deposited in pits or disposed of with the help of local authorities.

**Hazardous waste management**

Waste separation at sources is done and separated solid wastes are dumped at designated locations.

**Water harvesting and recycling**

Buildings are provided with rain water harvesting facility to help in maintaining and improving the water table.

**E-waste management**

E-waste management has been given due focus and all electronic goods are put to optimum use. Obsolete computers and other wastes generated from the electronic equipment are auctioned to authorized e-waste dealers.
